

**"All for one and one for all..."
...is a terrible idea for cash management.**

If your cash is managed with everyone else's, with one set of investments for all (one for all), whatever bad thing happens to them can also happen to you (all for one). Things like premature withdrawals by larger investors, failure scenarios of fund managers, clearing firm actions, and so forth. That's why Horizon manages your cash individually, customized rather than "off-the-rack" and designed for your goals and your needs. And that's why here,

Everyone has their own Horizon.

HORIZON
Cash Management
